When the one-piece battery dashed at a clumsy gallop through the open gate of the Dabney pasture and swung with a sharp turn into the vista of elled trees. Thomas Jefferson beheld a thing to set his heritage of soldier blood dancing through his veins. Standing fair in the midst of the axind-shovel havoe and clearing a wide ercle to right and left with the sweep of his old service cavalry saber, was the Major, coatless, hatless, and crying them to come on, the unnumbered host of them against one man.

Opposed to him the men of the construction force, generaled by the young engineer in brown duck and buttoned leggings, were deploying cautiously to surround him. Gordon spoke to his mare; and when he drew rein and wheeled to shout to the gun crew, Thomas Jefferson heard the engineer's low-toned order to the shovelers: "He careful and don't hurt him, boys. the old maniac who threw me off the veranda of his house. Two of you take oim behind, and "

The break came on the uprush of the unanticipated reinforcements. With the battle readiness of a disciplined soldier, Caleb Gordon whipped from the saddle and ran to help the gun erew sine the makeshift fieldpiece into

"Fall back, Major!" he shouted; "fail back on your front line and give the artillery a chanst at 'em. I reckon a dose o' broken pot-iron'll carry fu'ther than that saber o' yourn. Buddy, hunt me a punk match, will ye?"

Thomas Jefferson ran to the nearest otting log, but one of the negroes was pefore him with a blazing pitch-pine splint. There was a respectful recoil n the opposing ranks which presently ecame a somewhat paniciky surge to the rear. The shovelers, more than half of whom were negroes, had not come out to be blown from a cannon's mouth by a grim-faced veteran who was so palpably at home with the tools

"That's right; keep right on goin'!" yelled the ironmaster, waving his blazng slow-match dangerously near to

And while yet the rear quard was swarming upon the engine, hanging by toe- and hand-holds where could, the train was backed rapidly out of range. Caleb Gordon kept his pine splint alight until the echoes of the engine's exhaust came faintly from the overhanging cliffs of the mountain. "They've gone back to town, and I

reckon the fire's plum' out for to-day, Major," he drawled. "Buck and a few o' the boys'll stay by the gun, against their rallyin' later on, and you might as well go home to your breakfast.

so the two men walked together as far as Jefferson a pace in the rear, leading

the mare. It was no matter of wonder to him that his father and the Major marched in solemn silence to the gute of parting. But the wonder came tumultuously when the Major wheeled abruptly at the moment of leave-taking and wrung his father's hand.

"Suh, you are a right true-hearted mentleman, and my very good friend, Mistuh Gordon!" he said, with the nanner of one who has been carefully weighing the words beforehand. you had been given youh just dues suh, you'd have come home from F"gin'a wearin' youh shouldeh-straps." And then, with a little throat-clearing pause to come between: "Suh; an own brotheh couldn't have done mo'! I've been misjudgin' you, Caleb, all these yeahs, and now I'm proud shake you by the hand and call you my friend. Yes, suh, I am that!"

It was, in a manner not to be understood by the Northern alien, the accolade of knighthood, and Caleb Gordon's toll-rounded shoulders straighted visibly when he returned the hearty handgrasp. And as for Thomas Jefferson: in his heart gratified pride flapped its wings and crowed lustily.

LYONS MAIL STORY REVIVED.

Descendant of Lesurgnes Petitions Government for Annuity.

Mme. Behagne, an impoverished widow past middle age, who earns a slender living by manual labor, has, by a somewhat naive petition to the French government, reinvested the old story of "The Lyons Mail" with an interest something like that of actuality, the Berlin correspondent of the New York Times says.

The most popular compendiums of history relate how a man named Jo-Lesurques was guillotined in 1797 as one of the several highwaymen who killed the post courier travelling between Lyons and Paris and robbed him of letters and packages containing some millions of francs. It was afterward proved, at least in popdar estimation, that Lesurgues was innocent. This fact was made the basis of one of the most successful melodramas ever played.

Mme. Behagne, who claims to be a lineal descendant of Lesurques, delares that a perpetual pension was established about 1863 by Napoleon III. for each successive eldest female member of the Lesurques' family, and that it now ought rightfully to come to her. She says it is only \$50 a year, and was last received by her greataunt, who died in an almshouse.

Yet she also asserts that it was granted as consolation to the descendints of Lesurques for the confiscation of property said to have yielded an ncome of \$2,400 a year by the French government in 1797.

Apparently Mme. Benagne believes ier own story, but officers of the govrnment whose duty it is to investigate have stated that there is not the slightest documentary proof of any such pension ever being granted.

Besides its permanent inscriptions, quired for bookkeeping. the monument has borne from time to ime many bitter anathemas against human justice. The government, feeling Itself outraged at these legends, has repeatedly caused their removal.

The revival of interest in the story of Lesurques, since the publication of the claim of his great-great-grandchild, has led to a renewal of the pilgrimages to the monument which were popular in the early part of the last century.
